

*Amendments to the Specification*

[0024] In one embodiment of the present invention, as shown in FIG. 4, shade 100 is attached to computer monitor 104 by a hook and loop fastener 120 such as VELCRO. One portion of the hook and loop fastener is placed on the center of top portion 106 of computer monitor 104, and the other portion of the hook and loop fastener is placed on the center of a top portion of shade 100. Shade 100 may accordingly be attached to computer monitor 104 by placing the two portions of the hook and loop fastener together. In another embodiment of the present invention, multiple hook and loop fasteners 130 may be used along top portion 106 of computer monitor 104, such as a hook and loop fastener at both the right and left ends of top portion 106.
